

WE'RE LOOKING FOR WORLD-CLASS TECHNICAL TALENT

At Shell, we are working towards meeting the world's rising demand for energy. Advanced technology is helping us unlock new energy resources and develop existing oil and gas fields more efficiently and responsibly. Shell has been operating in Australia for 110 years and is marked as a growth centre for Shell globally.

Our Manufacturing business has the capability to process some four million barrels of crude oil per day, and operates in 35 refineries worldwide, producing gasoline, diesel, heating oils, aviation fuel, lubricants and bitumen. Delivering cutting edge technologies, our manufacturing sites contribute significantly to meeting the world's energy needs.

We are looking for world class technical talent to join us at our Geelong Refinery in the following roles:

- **Senior Process Engineer**
- **Process Control & Optimisation Engineer**
- **Process Safety Technologist**

Shell has a tradition of meeting challenges. We offer professionals some of the most challenging and rewarding projects the industry can offer in a rewarding work environment. If you want to work with a group of creative, ambitious and innovative professionals then you should consider Shell.

If you're ready for new challenges, better development opportunities and the ability to make a real difference in the world, Shell is the place for you.

Shell Australia is recognised as an employer of choice for women from the Equal Opportunity for Women in the Workplace Agency (EOWA). At Shell we believe that every individual has something valuable to offer. We understand that the more diverse the workforce, the wider the variety of ideas we bring to the table. Shell values diversity and offers: flexible work schedules, work and family programs, health and wellness programs, employee networks and mentoring, plus great training and development.

A pre-employment medical, including health, drug and alcohol assessment is a requirement for this position and part of our selection process. This role is subject to random medical, drug and alcohol assessments.

Applicants must possess Australian or New Zealand permanent residency (PR) or citizenship, or have a current and valid Australian work permit at the time of applying.
